## MESSAGE FROM THE PRESIDENT

**HAPPY NEW YEAR!**

As we approach the middle of our fourth year in business I'm happy to report that we are still making positive progress in the world of Information Technology. This year we were named as one of the Top Small Businesses for 2007 by *DiversityBusiness.com*. We are ranked #13 in the Top Native American Owned Businesses by *American Indian Business News* for the year 2007.

This year promises to be a very good year. We are gradually moving into more service oriented contracts with higher margins. We are more engaged in long term multi-year contractual arrangements. We have expanded our resources to areas of Guam and Korea. We have added new sales force in the Virginia and West Coast areas. We are in the process of acquiring another IT company to help fulfill our needs. We have brought on new customers and partners. Everything is pointing to continued success in 2008.

Our success is largely due to the fact that our employees are highly skilled professionals and continue to strive for excellence and profitability. Each and every one of you is part of the overall successes of Suh'dutsing Technologies. This year is the year of accountability. Goals have been set and it's our desire to see each of you reach your potential in obtaining your goals. Managers should follow up on these goals quarterly to monitor progress and achievement. Corporate goals are in place and timelines established. There is no way we can fail to succeed. By supporting one another and working cooperatively with one another we can only go upward and forward.

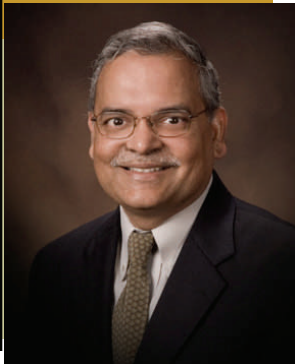

Thank you for all your hard dedicated service to making Suh'dutsing Technologies a success. I'm proud to be associated with each of you and proud to be part of the growing successes of Suh'dutsing Technologies.
